

If you are considering becoming ISO 9001:2015 or ISO 17100:2015 Certified, or just looking to improve your current Quality Management System (QMS), UNICORN A-M-P is offering consulting services to make that process quicker and less painful.

With over 13 years of experience, Doug Strock, BSI Lead Auditor Certified, can consult with you to either help you become ISO certified or improve your program. In addition to the consulting services, you will have access to a set of online tools that can help you better organize your data and greatly streamline your ISO compliance audits.

The tool set includes ISO-specific components, a Knowledge Base (KB), and an asset inventory database.

With the tools provided, you can:

1. Track Corrective Actions, Preventive Actions, and Continual Improvements.
2. Maintain training records.
3. Incorporate risk management.
4. Track and display audit trends.
5. Indicate “essential” records in the KB to support the QMS.
6. Assign “role-based” reviews to essential records.
7. Maintain version control and access control over documents.
8. Provide more consistent and secure document and knowledge access for a remote workforce.

Consulting packages start with a 10-hour block to help you achieve certification.

If interested, contact Doug Strock at (989) 859-6213 or [djstrock@gltac.com](mailto:djstrock@gltac.com).

### Testimonial from Lelani Craig at CommGap:

*We worked with Doug as we prepared for our ISO renewal. Doug was a huge help as we put together our strategy and file needs for our ISO audit. He is very knowledgeable and helpful. He thinks outside the box. He brought to light ideas that made our renewal more organized and focused.*
